In order to create a world where every child, adolescent and young person is safe, protected and thriving, we must first know the facts.

In Kenya, both girls and boys experience unacceptably high rates of sexual and physical violence

Percentage of females and males who experienced sexual or physical violence prior to age 18

KENYA

Girls face particularly high risks of sexual violence, often with devastating consequences

For many youth, the first experience of sexual intercourse is physically forced or coerced

(among those who had sexual intercourse before age 18)

Sexual violence is linked to negative health outcomes
