In Honduras, both girls and boys experience unacceptably high rates of sexual and physical violence

The Government of Honduras launched the VIOLENCE AGAINST CHILDREN AND YOUTH SURVEY in 2019 with support from IOM, USAID, CDC and other partners.

Girls face particularly high risks of sexual violence, often with devastating consequences

Sexual violence is linked to negative health outcomes

All data among 18-24 year olds

*Estimate may be unreliable
Most common perpetrators of first incident of sexual violence as reported by females and males who experienced sexual violence prior to age 18

*Intimate partner is defined as spouse, boyfriend, girlfriend or romantic partner
