In order to create a world where every child, adolescent and young person is safe, protected and thriving, we must first know the facts

In Kenya, both girls and boys experience unacceptably high rates of sexual and physical violence

Percentage of females and males who experienced sexual and physical violence prior to age 18

- Sexual violence: 16% (females) and 6% (males)
- Physical violence: 39% (females) and 52% (males)

For many girls, the first experience of sexual intercourse is physically forced or coerced

Among those who had sexual intercourse before age 18:

- 9% of girls were physically forced or coerced

Girls face particularly high risks of sexual violence, often with devastating consequences

Sexual violence is linked to negative health outcomes

Percentage of females who have ever thought of suicide

- Did not experience sexual violence in childhood: 13%
- Experienced sexual violence in childhood: 29%

Age of first incident of physically forced or pressured sex, among those who experienced physically forced or pressured sex prior to age 18

- Ages 14-15: 30%
- Ages 16-17: 55%
- Age 13 or younger: 15%

All data among 18-24 year olds, unless otherwise indicated.

*Coerced sex includes sex through verbal pressure, harassment, threats/tricks or when the person was too drunk to say no.
**Perpetrators of sexual violence are often someone known to the child or adolescent**

Most common perpetrators of first incident of sexual violence as reported by females and males who experienced sexual violence prior to age 18

*Unreliable estimate. **Unstable estimate, estimate is suppressed. *Intimate partner is defined as spouse, boyfriend, girlfriend or romantic partner. †Includes family member, teacher, police/security person, employer, neighborhood/religious leader, neighbor, friend, or stranger.
